Introduction

Entrepreneurship is an important element which assists the industrial development of a region. It is proved that the concept that entrepreneurs are born and not made, need not be true in all cases It is also established that people with basic qualities required to be an entrepreneur can be moulded to be a successful entrepreneur through systematic training and motivation. Domain knowledge also is an important factor in the making of a confident entrepreneur. The programme aims at imparting the required domain knowledge in the field of Food processing for those who aspire to be entrepreneurs in this field along with the essential inputs on starting their own ventures.
